Experience

FULLSTACK ENGINEER/ GREENSOL   04-2024-Present

As an intern, I developed and maintained server-side applications, including a job application site for Greensol and a job posting board. I utilized JavaScript, TypeScript, HTML5, CSS, and Node.js, gaining practical experience with Git and GitHub. I also developed a CRUD application using MongoDB and MySQL. Additionally, I created user flow charts and conducted competitive analysis using Figma. Throughout my internship, I wrote over 600 lines of code in Visual Studio Code and engaged in code reviews.
